^{* =} low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

Definitions: Measures and terms are defined in Appendix A.

Source: SAMHSA, Center for Behavioral Health Statistics and Quality, National Survey on Drug Use and Health, 2019 and Quarters 1 and 4, 2020.

NOTE: Estimates in the 2020 column are italicized to indicate caution should be used when comparing estimates between 2020 and prior years because of methodological changes for 2020. Due to these changes, significance testing between 2020 and prior years was not performed. See the 2020 National Survey on Drug Use and Health: Methodological Summary and Definitions for details.

NOTE: Respondents with unknown past year Major Depressive Episode (MDE) data were excluded.

¹ Respondents with unknown impairment data were excluded.

² Respondents with unknown past year treatment for depression data were excluded.

³ Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

⁴ Other Health Insurance is defined as having Medicare, military-related health care, or any other type of health insurance.

⁵ Respondents with unknown health data were excluded.

Table 9.6D Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year: Among People Aged 12 to 17; Receipt of Treatment for Depression in Past Year: Among People Aged 12 to 17 with MDE and among People Aged 12 to 17 with MDE with Severe Impairment in Past Year; by Geographic, Socioeconomic, and Health Characteristics, Standard Errors of Percentages, 2019 and 2020
